### Stéphanie Coutas creates new designs for Tai Ping

Stéphanie Coutas, founder of interior design studio SC Edition, has created three new designs for Tai Ping. Entitled 'Aphrodite', 'Arès', and 'Versailles', the new designs are part of Tai Ping Galerie, which presents work by decorators, designers and artists.

Based in Paris, but raised in Asia, Stéphanie is renowned for her plush, modern spaces, and her mix of Art de Vivre with culture.

Stéphanie's Aphrodite and Arès carpet theme – inspired by a male and female theme – offer an original approach to decorating large spaces. The Aphrodite design channels the

idea of a corset through a striking embroidery effect, while Arès conveys a warlike image in the form of a devoured shield.

Versailles, the second project, provides a contemporary interpretation of one of the ultimate neoclassical themes – French gardens.

Featuring a new look and timeless design, this made-to-measure carpet is available in wool, silk or outdoor fibre for outdoor living spaces, bathrooms and spas.
